

INSTRUCTION FOR G19

INSTRUCTIONS

1. Two models continuously press the button to turn on and switch modes, five modes in the cycle (front strong light-front weak light-side white light-side red light-side red light flash), long press the button for 0.5S to turn off at any modes.
2. G19 is equipped with a head strap, which can be used as both a flashlight and a headlight.
3. The head of two working lights can be rotated 90 degrees for use, make it more flexible to use.
4. Two models have a magnetic rotating base design, makes it easier to fix and adjust.
5. Working lights are equipped with a USB charging port, and the working light can be charged with chargers, power banks, computers and other devices. When charging, the charging indicator lights up red, and when fully charged, the indicator lights up green/blue. When the power of the light is low, the indicator light will flash red. (As Figure 1.5)
